

SUPERVISORS OF WEST NANTMEAL TOWNSHIP
FIREWORKS DISPLAY REQUIREMENTS

PROPERTY OWNER'S PERMISSION LETTER REQUIRED

This permit allows the applicant to display fireworks on the date, time, and location listed above. Permission is also granted to have the necessary fireworks shipped to the above named permit holder. All fireworks display activity must be performed in compliance with NFPA 1123 and NFPA 1126 standards. All other fire safety practices not specified in these documents, but which a prudent person would normally follow, must also be adhered to. This permit is non transferable. Permit must be available on site for the duration of each event indicated above.

NO FIREWORKS DISPLAY MAY OCCUR UNLESS AN ON-SITE INSPECTION HAS BEEN SUCCESSFULLY PASSED AT THE PROPOSED DISPLAY LOCATION.

REQUIREMENTS FOR A FIREWORKS DISPLAY PERMIT

A permit is required for the pyrotechnic display of fireworks within West Nantmeal Township. **The permit is issued by West Nantmeal Township Code Official. There is a \$35.00 permit fee + the costs incurred by the township Building Code Official for all time spent reviewing plans, location of display and specifications for the public display pursuant to the Township Fire Code.** Application for approval shall be made in writing at least 30 days in advance of the date of the display or discharge of fireworks. The rules and regulations for the pyrotechnic display of fireworks shall be in accordance with ALL applicable state, county and local laws and ordinances and the 2009 ICC International Fire Code and NFPA 1123, 1124, and 1126.

The application submittal must include the supporting documentation as follows:

- A certificate of insurance and/or bond with minimum liability insurance amount of \$1,000,000.
- A complete list of all pyrotechnic devices to be displayed. Displays before a proximate audience require the submittal of device and effect descriptions.
- Site plan(s) which detail the firing site and device layout and an overall site plan indicating the locations of spectators, the firing site, the fallout perimeter, and fireworks storage area.
- Letter of permission to display fireworks by the property owner.
- Pennsylvania Certificate of Registration for Fireworks Displays (if required).
- Arrange for standby fire apparatus for protection down range if needed.
- Finally, the display technician shall issue to the Building Code Official copies of all post-display reports, including a record of misfires and post display inspection of fallout area.

The Fire Official and the Code Official must inspect the site, fireworks, equipment, installation and display as conditions of the permit.

A portable fire extinguisher with a minimum rating of 2A:40BC shall be located within 50 feet of the display operator. No smoking shall be allowed within 50 feet of any area where fireworks or pyrotechnic materials are present. All fire extinguishers must bear the label of a bona fide certifying agency that is dated not more than one year prior to the performance date.

Spectators, vehicles, or readily combustible materials shall not be located within the fallout area during the display.

Any authority or authorities deeming this display unsafe due to lack of crowd control or that the crowd is in danger, may have the authority to immediately discontinue the display, or if at anytime the winds, or wet weather creates a danger, the display shall be postponed until weather conditions are acceptable to the Fire Official and the Code Official.
